

## COUNTRY HOME KITCHEN & MASTER BEDROOM SUITE EXTENSIONS

### Location:

Beautiful country home in Lytchett Matravers set in peaceful countryside

### The Brief:

*KITCHEN EXTENSION TO CREATE LARGE KITCHEN AND SNUG AREA AND CREATION OF MASTER BEDROOM WITH EN SUITE TO TERRACED BALCONY AREA.*

The client wanted a larger kitchen and dining area and therefore we removed existing walls to generate more space to form a large kitchen and snug area. Subsequently they decided they also wanted to combine and extend two of their existing bedrooms and make use of their terrace area to form a master bedroom and to form an en-suite. Special consideration to match new existing brickwork with careful use of mortar and re-use of bricks was needed.

### The requirements for kitchen extension:

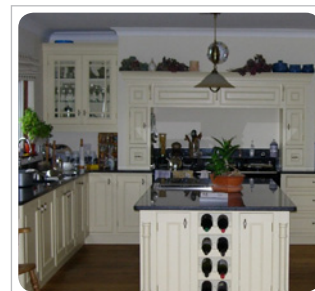

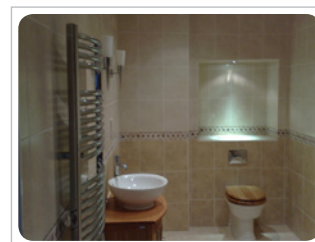

- Removal of fireplace wall to create one larger area with steel support over
- Forming new doorways and window openings to external walls
- Creation of large kitchen and snug area

### The requirements for master bedroom extension:

- Extend and combine existing two bedrooms onto terrace area to create master bedroom suite with en-suite
- Bespoke hardwood doors and window sets made to clients design
- Refurbished balcony area
- Form new dormer window to front elevation
- Widen opening from lounge to sunroom
- Form new patio door and window openings from sun lounge onto garden
- Bespoke matching hardwood doors and windows to complement bedroom

### The transformation:

Both the external and internal appearance of this character home were dramatically improved by the extensions and the use of the house was significantly enhanced. The extension to the upstairs master bedroom enabled the balcony area to be utilised and enjoyed by the client.

### Testimonial:

"Thanks for all your help and problem solving in transforming our house".
